

# DURA-FLO™

## FROM DURA-FLO™ PACKAGE CONVEYOR

Creative Storage Systems brings you innovation in a portable, convenient piece of equipment designed to flow packages over a short distance.

The Package Conveyor Flexi-stand is sturdy, durable and is designed to provide strength and control on uneven placement.

The use of the "FreeWheeler" Wheel provides superior flow and control of package movement.

5/16" steel axles support heavier packages snap on for quick changes.

\*Dura-Flo™ patent pending,  
FreeWheeler™ patent pending

Curved sections are available 16" wide in 90-, 60- and 30-degree curves.

## CSS Dura-Flo Package Conveyor

| Straight Sections                |  | 16-inch wide |     | 24-inch wide |     |
|----------------------------------|--|--------------|-----|--------------|-----|
| Item                             |  |              |     |              |     |
| Available Lengths (in.)          |  | 60           | 120 | 60           | 120 |
| Weight Capacity (lbs.)           |  | 105          | 38  | 105          | 38  |
| Section Weight with stand (lbs.) |  | 63           | 89  | 84           | 118 |

The Flexi-stand is easy to set up and extends from 30" to 50" and angles at 12° (degrees) front and back to provide sturdy position for inclining situations.

Castors are a snap in option which provide ease of movement, easily stored when not in use.
